

Across the Street,
Across the Country,
Diga-Talk⁺ has you covered!

DISPATCH SOFTWARE

The Dispatch Software provides you complete control of your mobile workforce. It works in conjunction with your mobile and portable radios. The interface is simple to use, PC compatible and based on a multi-functional and visualization dispatching system. You can communicate and monitor, and with optional GPS tracking, you can track and see where your team is located and provide timely dispatching.
